

PRINCE JAIN

Backend Developer | Node.js | BFSI & Insurance Systems
9702319850 | prince.jain.1103@gmail.com | [LinkedIn](#) | Mumbai, Maharashtra

PROFESSIONAL SUMMARY

Backend Developer with 2.5 years of experience building Insurance and BFSI applications using Node.js, NestJS, TypeScript, MySQL, and PostgreSQL. Experienced in API integrations, multi-tenant systems, RBAC-based platforms, and secure REST API development.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Backend Frameworks: Node.js, Express.js, NestJS

Frontend / Full-Stack: Next.js, REST API

Databases & ORM: MySQL, PostgreSQL, Sequelize, TypeORM

Security & Tools: JWT, RBAC, VAPT-Aligned Secure Coding, Git, Postman, Swagger, AWS EC2/S3

PROFESSIONAL EXPERIENCE

Software Developer — KIS TECH SOLUTIONS PVT. LTD

March 2024 – Present

- Developed and maintained 20+ production-grade REST APIs supporting Insurance and BFSI workflows including quotes, policy issuance, payments, claims, and endorsements.
- Integrated 5+ insurance provider APIs for real-time quote generation, policy issuance, and policy synchronization.
- Implemented JWT-based authentication and RBAC for Admin, Corporate, Manager, and POS users across multiple business modules.
- Optimized database performance through indexing, query tuning, and Sequelize scopes, improving API response times on high-traffic endpoints.
- Reduced bulk data migration time by ~90% by building a Node.js utility capable of processing 100,000+ Excel records into MySQL in under 30 seconds.
- Built reporting modules with filtering, pagination, and dynamic PDF/Excel exports while following VAPT-aligned security practices.

KEY PROJECTS

Insurance Distribution & Policy Management Ecosystem

Tech: Node.js, NestJS, Express.js, TypeScript, PostgreSQL, MySQL, TypeORM, Sequelize, JWT, REST API

- Built backend services for corporate & retail policy management, insurance purchase journeys, admin operations, and POS onboarding platforms.
- Developed a multi-tenant architecture enabling tenant-specific master configuration, workflow management, and isolated business settings.
- Integrated multiple insurer APIs for quote comparison, policy issuance, and policy synchronization across insurance providers.
- Implemented RBAC, reporting APIs, dashboard analytics, and POS onboarding workflows including KYC verification and certification management.

EDUCATION

B.E. in Computer Engineering — Mumbai University

2019 – 2023

CGPA: 8.76 / 10

ADDITIONAL

- KAITO **Star Award** for outstanding backend development performance.
- Working with Docker and CI/CD pipelines to improve backend development and deployment workflows.
- Member of Leo Club of Dombivli.
